

# Piglet Breeding and Fattening Company in Thuringia

The company operates two of the largest piglet breeding and fattening sites in Germany. In addition to its own breeding facility and a second location for raising pigs, the company also has two large leased fattening facilities.

## Company information:

- total revenues approx. 10 million EUR with
- approx. 90 employees

## Breeding facility:

- approx. 34 ha land
- 74.000 m<sup>2</sup> stable with
- 24.000 piglet breeding spaces

## Piglet breeding and fattening facility:

- approx. 17,5 ha land
- 22.000 m<sup>2</sup> stable with
- 9.700 feeding spaces

At a crossroads, from a business perspective: illnesses, rock bottom market prices, investment backlog, burdensome side activities, cash-burning

## Purchaser:

International investor search:  
Sale to Scandinavian family with large farms

## Sales period:

1 year

## Purchase price:

Purchase price orientation based on strategic considerations („unique“ licensing situation, market access,...): high single digit million price plus assumption of debt
