

Meat and Sausage Factory in Thuringia I

The new facility was established in 1995 and the business was shut down in 2001. The remains of a gutted factory are located on the adjacent property.

Property information:

This production facility with approx. 3,000 m² of usable production area and administration areas on the first floor also includes an older refrigerated hall and adjacent properties that offer space for later expansion projects.

Purchaser:

National investor search:
Sale to a northern Rhine meat and sausage corporation

Conditions:

Purchase price orientation: purchase of a complete, fully licensed / accredited production facility with advantageous location ("Thuringian", possibilities for improvement)

=> Revitalization of the location: creation of 100 jobs so far, in **the medium term >> 130**

Services:

As the investor has a different production concept (small line of goods with high tonnage), the existing production technology – designed for a wide product range – was sold separately.

Sales period:

6 months
